2.3 Operating your Hyper-Board

Always be aware of the surroundings while riding your scooter. If you notice any obstacles or people, be prepared to react quickly to avoid accidents. Always use caution when turning or maneuvering your scooter, as it can be difficult to control at high speeds or on uneven surfaces. Be sure to follow the instructions in the User Manual at all times to ensure safe and enjoyable riding.

Chapter 5: Safe Driving

Before you start, familiarise yourself with how to operate the scooter, so that you can keep it in good condition. When you are learning to ride the scooter, make sure that you wear a helmet, knee pads, elbow pads and other protective gear. Always keep your hands on the handlebars when riding. When riding your Hyper-board, you should comply with local traffic laws, and give way to pedestrians. Always be aware of your surroundings, and watch for obstacles such as areas with pedestrians or obstacles. Be careful when you go through doorways and ensure that there is enough room for you and the scooter to pass through.

Chapter 6: Driving

This chapter will focus on safety and warning systems. Before operating the vehicle, read all the instructions for safe operation. The User Manual can guide you through the functions and usage of your Hyper-board. Make sure your Hyper-board is in good driving condition. Use the manual carefully.

Chapter 7: Battery usage

For the safety of yourself and others, and to maximise the battery's life and improve battery performance, please perform the following steps:

1. Low battery

When the battery indicator is red and flashing, it indicates low battery. We recommend that you stop riding when the power is low. Note: you cannot charge the battery when the power is low. Please follow these instructions:

- Do not continue riding the battery in this condition.
- Do not remove the battery from the scooter.
- Do not charge the battery in this condition.

2. Charging steps

When the charging port is dirty, you need to clean it. You can use soft cloth or brush to clean it. Also, you can use water (not too hot) to clean it. When using a high-temperature cleaning tool, please make sure that the tool is not too hot.

- Do not insert any object into the charging port.
- Do not clean the insides of the charging port.
- Do not make the battery overcharge.

3. Battery specification

Your battery specification is: 36V/4.4AH, 4-6 Hours charging time.

4. 1 Cleaning

The Hyperboard needs to be maintained for safety and quality of ride. Always keep the Hyperboard indoors when not in use. Store it at a suitable temperature in a dry place.

- Avoid water or other liquids that may seep into the Hyper-board as this could cause permanent damage.
- Dust-proof and waterproof to IP54. Can withstand dust and splashes.
- Wipe the shell of electric scooter using a soft cloth.

5. 2 Battery Specification

<table>
<thead>
<tr>
<th>NAME PARAMETERS</th>
<th>SPECIFICATIONS</th>
</tr>
</thead>
<tbody>
<tr>
<td>Working Temperature</td>
<td>-15˚C~50˚C</td>
</tr>
<tr>
<td>Initial Volume</td>
<td>4.4AH</td>
</tr>
<tr>
<td>Charging Temperature</td>
<td>0˚C~40˚C</td>
</tr>
<tr>
<td>Charging Time</td>
<td>2-3Hours</td>
</tr>
<tr>
<td>Voltage</td>
<td>36V</td>
</tr>
<tr>
<td>Current</td>
<td>2.5A</td>
</tr>
<tr>
<td>Capacity</td>
<td>4.4AH</td>
</tr>
<tr>
<td>Charging Efficiency</td>
<td>80%</td>
</tr>
</tbody>
</table>

The charging efficiency is at its best when the temperature is within the limits below. If it is too hot or too cold, the charging time will be longer or it may not fully charge.

6. Storage

- Do not expose the battery to rain or snow.
- Do not store the battery on or near a heat source at temperatures higher than 50°C.
- Do not store the battery in temperatures lower than -40°C.
- Do not expose the battery to sunlight for extended periods of time.
- Do not charge the battery if it is exposed to temperatures above 50°C or below 0°C.
- Do not store the battery in humid or damp environments.
- Do not store the battery in direct sunlight or heat sources for extended periods of time.

7. The transport of the battery

- Do not transport your Hyper-board with liquid batteries by bus or by air. Please contact the nearest airport or bus station for more information.
- Battery damage or battery damage caused by improper handling may result in injury or damage.
- Keep all battery components out of reach of children.
- Do not transport the battery in a damaged state.
- Only use the licensed charger to charge the battery.
- Do not attempt to open and disassemble the battery as this will invalidate your warranty.

8. Conclusion

Thank you for choosing a Hyper-Board electric scooter. When using the Hyper-board, be sure to follow all instructions and guidelines in the User Manual to ensure safe and enjoyable riding. Always be aware of your surroundings and use caution when riding your scooter. With proper maintenance and care, your Hyper-board can provide a fun and exciting riding experience for years to come.
